

Dear Trusted Client,

I am pleased to inform you that QuickBooks Online has a direct API integration with Certified Payroll Reporting® by Points North. Certified Payroll Reporting® generates all federal, state, and municipal certified payroll reports that will need to be submitted to the government on projects that require prevailing wages to be paid. This integration will save you considerable time and money by allowing your employee and payroll data to flow seamlessly between our two platforms. If your company works on government funded projects and has a need to stay compliant, please contact me at _____, and I would be happy to provide you with more information. Thank you!
