

Boost your construction business

Help simplify your payroll processes with ADP® and Points North.

Managing payroll shouldn't be complicated — not even when prevailing wages and certified payroll reports are involved. Your construction business has unique needs and your HR platform should be flexible enough to match them. That's where ADP® and Points North come in.

Points North's Certified Payroll Reporting® solution integrates seamlessly with ADP via APIs, making it easy to pay prevailing wages and file certified payroll reports — without the headache.

\$3.7
trillion

Timesheet rounding errors cost businesses \$3.7 trillion globally.²

\$304
million

In 2018, the U.S. Department of Labor Wages & Hours Division collected more than \$304 million in back wages.¹

When you integrate Points North Certified Payroll Reporting® with ADP, everything you need, to help accurately and easily run payroll and generate certified payroll reports, is right at your fingertips.

If you're a general contractor, subcontractor or in specialty trades, you have specific needs from your payroll platform, including:

Managing multiple projects across cities, states and localities.

Tracking pay rates by employee, job classification, project and location.

Generating certified payroll reports.

Storing and managing fringe rates.

“Before we had the Points North integration, we were pulling data from three different sources to create our certified payroll report. We had to run reports or print a pay stub, pull hours off time cards, and also get the client data from our ERP system.”
